Medical Radiation Protection
EDUCATION AND TRAINING

The MEDRAPET Workshop

Scientific Committee

The MEDRAPET workshop aims to facilitate the discussion on issues related to radiation protection education and training of medical professionals in the EU member states.

The MEDRAPET project is currently conducting an EU-wide study to establish the status in the member states regarding medical radiation protection education and training. Results of this study are going to be discussed during the MEDRAPET Workshop. The outcomes will form the basis for a European Guidance on radiation protection education and training of medical professionals.

The workshop provides a platform for all medical professionals to exchange knowledge, share experience and discuss challenges and solutions to existing problems known in radiation protection education and training.

**MEDRAPET workshop
requires no registration fees.**

Maximum number of participants: 100

The MEDRAPET Project

The European Commission has recently launched the MEDRAPET (MEDical Radiation Protection Education and Training) project to a) assess the implementation of the Medical Exposure Directive provisions related to radiation protection education and training of medical professionals in the EU Member States and b) update the Radiation Protection 116 Guidelines. The professional organizations involved include the European Society of Radiology (ESR) as coordinator as well as the European Federation of Organizations for Medical Physics (EFOMP), the European Federation of Radiographer Societies (EFRS), the European Society for Therapeutic Radiology and Oncology (ESTRO), the European Association of Nuclear Medicine (EANM) and the Cardiovascular and Interventional Radiological Society of Europe (CIRSE). Detailed information about MEDRAPET can be found at the project website.

The MEDRAPET logo graphic features a white background with a stylized orange map of Europe. Overlaid on the map is a black silhouette of a person in a dynamic, athletic pose, possibly representing a medical professional or a patient. The text 'MEDRAPET' is written in a bold, black, sans-serif font at the top of the graphic.
